

Come Cruise With Us!

Embark on a grand adventure, exploring deep green jungles and ancient Maya ruins. Here rulers were considered gods and were worshiped at temples on top of pyramids. But this is only 1/2 the story. Cutting-edge research has now revealed an even earlier civilization (B.C. times). Come explore an area that was a cradle of ancient American high culture with great kings who controlled vast commerce networks and used their wealth to employ masterful architects and artisans to construct exquisite palaces, cement highways, and grand cities.

But what really makes this tour special is that alongside your crash course on the Maya, you will be immersed in Book of Mormon history, stories, and geography -- considering prime candidates for Book of Mormon lands and settings, with highlights in candidate locations for the Lands of Bountiful & The East Sea.
